

10.12.18

Our vet techs do so many things
To help your kitties out
So much in fact you might not know
What their job's all about!

They assist doc in exam rooms
And while he does surgeries
And run tests to check all sorts of things
From cats' teeth to their kidneys!

They help with boarding too,
And take care of us while you're gone
They groom us, bathe us, feed us,
And make sure we're not alone

They assist with ultrasounds
As well as laser therapy
Our vet techs simply do it all
It's clearly plain to see

We love them each and every one
For all the work they do
And so this month it's time to say
An extra-big THANK YOU!

Hi folks, this is Raptor reporting live from 1809 Magazine! I'm so excited to tell you all about our amazing veterinary technicians this month - without them the Cat Practice wouldn't be the same! Together with Doc, our vet techs make this place a home away from home for kitties who are recovering from surgeries, healing from injuries or sickness, or just staying with us while their human moms and dads are away for a little while! We can't thank them enough for all the ways they make our hospital better every single day, so be sure to say hello to them next time you come in to see us!

Over and out,
Raptor 🐾🐾
