An ultrasound's the thing you need
When your insides are hurting
It helps us see inside of you
To check out what's concerning

Our vet tech squad helps out with these
Important vet machines
So Doc can figure out what's what
In your kidneys, gut, or spleen

Ultrasound can also show
A cat's bladder condition
Which can mean trouble for us cats
And needs a vet's attention

So while Doc works the ultrasound
To diagnose what's wrong
Our vet techs keep your kitty warm
And hold them safe and calm

That's just another way our techs
Are here to make life better
For Doc, for you, and for your cat
We love our great vet tech-ers!!

Hi folks, this is Raptor reporting live from 1809 Magazine! Our vet tech squad is here for you both in good times and in bad, from routine annual vaccine appointments to emergencies and everything in between. We know vet visits can be scary for you and your feline friend when you don't know what's wrong, and our vet techs help keep your kitty calm and assist Doc with important imaging - especially ultrasounds! - so he can focus on diagnosis and treatment for a speedy recovery! We're so grateful to have such a dedicated and hard working team, and we want everyone to know what incredible work they do behind the scenes with Doc!

Over and out,
Raptor
