

11.9.18

November is Nutrition Month
Believe me - it's no joke
With all the junky foods out there
I feel ready to choke!

When your cat's health matters to you
It's Science that you trust
Vet scientists in fact -
Their expertise is just a must!

We've got a range of foods you see
Designed for all cats' needs
Prescribed by Doc to treat, prevent,
And keep you on your feet!

Along with this you'll also get
Food counseling from Doc
He'll help you figure out
Which foods are best and which are not

We all know dieting can be
A way to watch our weight
But what's more it can help prevent
Diseases that we hate

Stay tuned for more this November
I've got much more to tell
The Cat Practice has everything
To keep cats feeling well!

Hi folks, this is Raptor reporting live from 1809 Magazine! Keep an eye out for more nutrition-themed posts this November, and stay healthy my friends!

Over and out,
Raptor 🐾🐾
