

3.22.19

It's getting warmer now which means
That pests are on the rise
And parasites that cause us harm
Need to be recognized

They might be scary but don't fear!
They can be kept at bay
With monthly Revolution
You can make pests go away

It must be given every month
To keep your kitty free
From hookworms, roundworms, heartworms too
From ear mites and from fleas

These nasty critters really hurt
And put us in real danger
That's why we need protection from
These parasitic strangers!

So come on in and talk to Doc
He'll let you know the scoop!
Yes, parasites can be the worst
But now you're in the loop!
