

5.3.19

Did you know Revolution  
Has a brand new formula?  
It's stronger now against those fleas  
So it does more for ya!

As usual it keeps cats safe  
From hookworms, mites and more  
But now it kills flea eggs so quick  
They won't fall on the floor

You see, when fleas lay eggs on us  
The eggs fall off our skin  
And fall all over in your house  
That's where their lives begin

These little pests then hatch and grow  
From larvae to pupae  
And once they reach adulthood  
They cause all sorts of dismay!

They bite us kitties all over,  
They give us rashes too  
And some can even transmit parasites  
Like tapeworms - EW!

So Revolution now prevents  
These eggs from hatching out  
By killing them before they fall  
It really helps us out!

Howdy folks! This is Raptor reporting live from 1809 Magazine, and today I'm here to tell you all about the new and improved Revolution! This awesome new formula kills fleas and their eggs FAST - that means they can't get into your home and continue their life cycle, and this helps prevent infestations! It also means they can't bite us and make our lives miserable, which is definitely my favorite part! Ask Doc and his team about Revolution if you aren't already on it, or ask him to tell you all about the new formula and how it can keep fleas at bay all year round.

Over and out,  
Raptor 🦅
